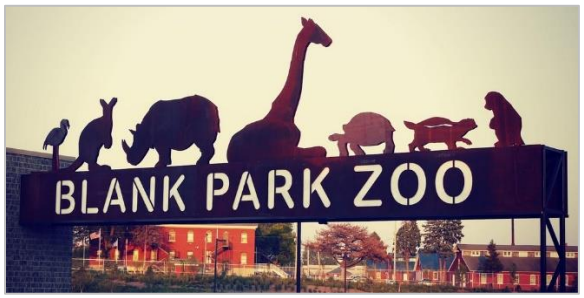
ZOO COLLABORATION - PETRA AND THE WOLF



Visit the Blank Park Zoo the same day as the performance for a special program about Animals in the Wild.

What is your favorite food to eat? What do you think your favorite animal likes to eat? During this adventure to the zoo, students will get the chance to learn all about the food chain and how animals survive in the wild. They will be able to interact with zoo educators while exploring nature through a variety of hands on activities. In addition to some of the stations, kids will also get the opportunity to meet some of the zoo's very own animals up close. Groups will have the opportunity to explore the rest of the zoo on their own if times allows.
