

HOW TO MAKE A PENGUIN PUPPET

1. Pick up assorted colored foam sections and mask elastic from the materials table.
2. Trace and cut the different parts of your penguin on the correct color paper:
Black paper: Head
White paper: Face
Orange paper: Beak
3. Pick up assorted colored foam sections and mask elastic from the materials table.
4. Place the beak with the point towards the top of the head. Align and staple the left tab of the beak with the slanted nose rest. Curve the right tab under the beak, align then staple this tab to the other slanted nose rest.
5. On your mask, punch a small hole on either side of your eye openings. Insert the ends of the mask elastic through these holes
6. Try your penguin mask on!
