

# HOW TO MAKE A MASK

**1:** Pick up 1 mask elastic and 1 foam sheet from the materials table.

**2:** Trace the mask and the 4 different silhouette shapes. Hint: be mindful to utilize your space if you want all the shapes!

**3:** Cut out the mask and shapes. Hint: Fold the foam in half then cut a small slit to easily remove the inside shapes.

**4:** On your mask, punch a small hole on either side of your eye openings. Insert the ends of the mask elastic through these holes.

**5:** Arrange the silhouette shapes along the top of your mask to create your character and staple down.

**6:** Put on your mask and act out your own epic adventure!
