**ARTIST STATEMENT**

"My experience stage managing *Cinderella* was a truly perfect way to end my senior year and technical experience in high school. Over the course of the production, I had the opportunity to grow my stage management skills exponentially. Due to the wonderful master classes taught by Janet Albanese, I have developed a vision of what a stage manager must do. I was able to take some of the ideas from that class as well as my experience as an assistant stage manager for the Iowa High School Musical Theater Awards Showcase in 2019. Working so closely with Janet and three other highly motivated assistant stage managers helped me develop skills and confidence in my work, and gave me immense amounts of inspiration and motivation for this year's musical.

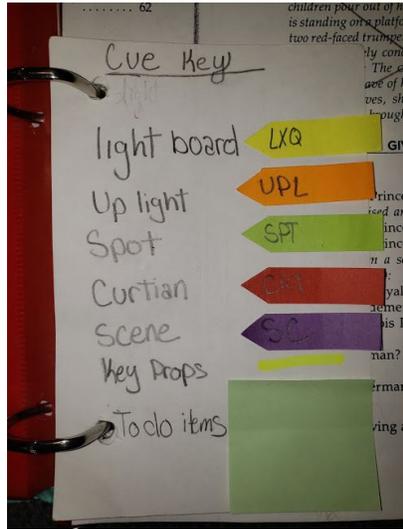

I believe that my additional experience coupled with a more mature attitude and a broader understanding of how both technical theater and teenagers work helped immensely with my teamwork and communication skills. Even when nerves started to fray around tech week, I was able to maintain a professional working environment for all students involved. I am so thankful to have worked with actors, tech crew members, and a director who were all so encouraging and supportive of my interest in stage management. Overall, I know that I would not have been successful without having a team of actors who were willing to step up, and a director who was willing to step back and let me have an educational stage management experience."
